

Save A Life Denver - Coalition Membership

Safe A Life Denver is a joint effort by community partners to provide resources and training to empower individuals to take appropriate action in the moment, and to talk with others about preparing for active threats. As a community, we can do more to prepare for, respond to and recover from active threats. Even though this is a difficult and uncomfortable subject to talk about, thinking about and planning for your response to an active threat can save lives. We are excited about this opportunity to bring more partners together. As a community, we will be more prepared and resilient if we are all empowered to save lives.

A coalition, by definition, is *"a pact or treaty among individuals or groups, during which they cooperate in joint action, each in their own self-interest, joining together for common cause. The alliance may be temporary or a matter of convenience. Members are those with overlapping rather than opposing interests."*

Membership is FREE and open to those who are interested in collaborative efforts to prepare our community.

Service Delivery

Become certified to deliver active threat and stop the bleed training to local businesses and organizations. Your partnership will help increase and expand the reach of service to the community.

Make the Commitment

We ask coalition partners to further the cause and make a small commitment in addition to your work as either a Service Delivery or Champion member:

- Mention your involvement in the Save A Life Denver coalition and the resource of savealifedenver.org when you are working/speaking/featured in the public on this important topic.
- If possible, share a link to the Save A Life Denver website on your organization's website.
- Follow us on Twitter [@SaveALifeDenver](https://twitter.com/SaveALifeDenver) and share relevant information.
- Tag [@SaveALifeDenver](https://twitter.com/SaveALifeDenver) when you post about this important topic.

We, _____ are proud to be a member of Save A Life Denver, in the role of SERVICE DELIVERY or CHAMPION to help expand the reach of service to the community and elevate the conversation around the importance of preparedness as it relates to active threats.
